

Practical Aspects of Sampling

1. Objectives of the study

- Define population
 - i. Target population
 - ii. Sample population
- Population parameters
- Degree of precision

2. Design of the study

- Data to be collected
- Method of measurement
- Sampling units
- Sample selection design

3. Field work

- Train field personnel
- Preliminary study
- Revision of objectives and/or design
- Collect data

4. Data analysis

5. Conclusions and recommendations

										1	2	3	4	5					
										6	7	8	9	10	11	12	13	14	15
